

Ride report 23,11,2008

Even though Saturday was cancelled, Bill And Darren still put on a great day and the weather was fantastic, Terry, Peter and Michael managed to kiss the dirt a few times at low speed. I did notice Trevor doing a super man on a very steep section to his credit he hang on - he doesn't like getting scratches on his new KTM. We had the obligatory flat tires which slowed us down since Bill did one at at at smoko, it Now it was Darren,s turn, Its rumored that Darren tried to cheat with a can the first time, Didn't get away with it for long, a tube change had to happen. Lunch was the usual excellent feed of salad rolls and every kind of refreshment you can think of . Since Russell's bike Started to make funny noises it was placed in the trailer and the spare CRFX 450 came out for a run. Terry's bike lost its rear brake return spring lucky there was a dead KTM in the Trailer, did I mention a "KTM" died. Bill and Darren always checked if we felt comfortable with any technical terrain we had traverse which is good as I was feeling my way on my bike after crashing 12 weeks ago breaking 3 bones in my foot. Cant wait for next years 2 day ride. - WebMaster

Hold the Press, news just to hand Photo evidence of alleged bodgy puncture repair
